

Columbia University  
Assistant/Associate Professor of Pediatrics  
Division of Pediatric Allergy, Immunology and Rheumatology

The Division of Pediatric Allergy, Immunology and Rheumatology is recruiting for a full-time faculty position in Allergy and Immunology. This individual will be expected to devote the majority of time to pediatric and adult clinical care and teaching at Columbia University, pursue scholarly interests, and will take an active role in the growing Food Allergy program. The position includes potential leadership opportunities.

The Department of Pediatrics serves a diverse patient population and is part of Morgan Stanley Children's Hospital of New York, the only dedicated children's hospital in Manhattan. We seek candidates with a strong knowledge in Allergy and Immunology, interest in teaching residents and fellows, and excellent communication skills. The position includes a full-time academic appointment at Columbia University with rank and salary commensurate with training and experience.

The candidate must hold an MD degree, be board certified in Internal Medicine and/or Pediatrics, and board eligible or certified in Allergy and Immunology. Visit us on the web at: <https://www.columbiadoctors.org/childrens-health/>.

Interested individuals should submit a CV, cover letter to:

Rachel L. Miller MD, FAAAAI  
Chief, Division of Pediatric Allergy, Immunology and Rheumatology  
Columbia University Medical Center
