

CIS Mission Statement

The mission of the Clinical Immunology Society is to facilitate education, translational research and novel approaches to therapy in clinical immunology to promote excellence in the care of patients with immunologic/inflammatory disorders.

Objectives and Purposes

The Clinical Immunology Society (CIS), established in 1986, is devoted to fostering developments in the science and practice of clinical immunology. The primary objectives and purposes of this Society shall be to:

- Facilitate the interchange of ideas and information among physicians and other investigators who are concerned with immunological/inflammatory diseases;
- Promote research on the causes and mechanisms of diseases relating to the immune system and, as a result, to unify concepts of disease pathogenesis;
- Encourage investigators and clinicians to share in their knowledge of immunologically active drugs and other interventions;
- Promote application and dissemination of recent advances in biomedical science for the prevention, diagnosis and treatment of diseases related to immunity and inflammation; and
- Foster excellence in research and medical practice.

CIS Foundation

With the introduction of the new CIS Foundation, the purpose is to support and provide educational and research opportunities for Fellows and Junior Faculty members of the Society.

Educational Opportunities:

- Annual Meeting Travel Grants
- Junior Faculty Awards
- Clinical and Diagnostic Research Efforts
- Bridge Grants
- Visiting observerships
- Diagnostic PID School

Global Relationships

CIS is dedicated to ensuring that its mission reaches all corners of the globe. Some ways in which CIS does this is by:

- The International Alliance of Primary Immunodeficiency Societies (IAPIDS)
- Reduced Membership Dues and Annual Meeting Registration Fees for those living in Developing Countries.
- Partnerships with other organizations resulting in joint meetings and other educational sessions.

Help Us Reach Our Goal
